Guarantee Income for Retirement and Help Underwrite God's Work

If you are in the retirement years, you may be seeking investments which protect the safety of your principle and give you a guaranteed fixed income for life.

A gift annuity from LeTourneau University meets these objectives while providing us an important gift to continue our mission.

You can receive a guaranteed income of 6% for a gift at age 57 and up to 11% for a gift at age 90. There is a sizable charitable deduction, and a portion of the income may be tax-free.

To answer your questions or to request the informative booklet, Giving Through Gift Annuities, please call John Martin at LeTourneau University's Office of Planned Giving: 1-800-259-5388.

Correction

The information phone number listed in the previous issue for LeTourneau University tours is incorrect. The correct number is 1-800-884-8638. We apologize for the error.

Updated Tour Information

The dates for the **Summer 1995 Biblical Cruise/Tour** have been confirmed. The trip is scheduled for **June 25-July 8** and includes a 14-day cruise of the Mediterranean Sea, with stops in Athens, Ephesus and many other biblical sites. For more information, call Georgie Willcox at **1-800-884-8638**.

1994 President's Annual Report

DR. ALVIN O. AUSTIN
PRESIDENT

Just a few days ago we honored our founders, R.G. and Evelyn LeTourneau, in a special "heritage chapel." Several of our staff members combined slides of "Mom" and "Pop" with actual recordings of the LeTourneaus' voices. Evelyn LeTourneau shared the stirring story of how, back in 1946, they spotted the abandoned U.S. Army Harmon General Hospital while flying over East Texas looking for a place to put an industrial plant. A casual remark—"Seems to me that somebody...could get that for a school"—led to the founding of LeTourneau University.

But God has no casual purposes. He prepared the people, the time and the location to bring about the creation of His plan.

And what a plan it has been. God has used LeTourneau University to bless the whole world. There are more than 8,000 alumni who have fanned across 55 nations of the world to serve Him in aviation, engineering, business, education, missions and hundreds of other professions. Every place they have gone they have made a difference in the lives they have touched.

And God has even more wonderful plans ahead for LeTourneau University!

This issue of the *NOW* serves three purposes. First, we want to share some of the highlights of the past year.

Second, we want to publicly acknowledge and thank our alumni and friends who have sacrificially given to support the University during the past year.

And finally, we want to introduce you to what we feel God has in store for LeTourneau University as we begin our second 50 years. In honor of our 50th anniversary, which will occur in 1996, we are introducing our largest capital campaign ever—a three-year \$16 million venture of faith called, appropriately, *Shaping Tomorrow*.

For 49 years, LeTourneau has been impacting the world through some of God's choice servants: our graduates. We have the opportunity to shape tomorrow by preparing tomorrow's leaders. Join us in our quest to shape the future.

But the plans of the Lord stand firm forever, the purposes of His heart through all generations.

Psalms 33:11 (NIV)

Highlights from the past year...

We're grateful for the Lord's blessings during the past year. Here are just a few of the highlights from the past 12 months:

- Record enrollment growth pushed us past the 2,000 mark and makes us the fastest growing private university in Texas with a 17.5 percent increase since 1993.

- Our adult programs continued to blaze new paths: we graduate our first ever Master's students this fall; student enrollment surpassed 1,000 in adult undergraduate and graduate programs.

newest member of the executive team. He comes to us from the University of Alabama. Nine new faculty were hired this fall. All are people of deep Christian faith, significant educational backgrounds and solid teaching experience. They are welcome members to the LeTourneau University family.

- Construction was completed on a \$1.2 million married student housing complex. It's beautiful! The Margaret Estes Library building was renovated in January. Also in the Library, major strides were made this year toward the automation of its functions, including the card catalog and checkout system.

- National attention was again focused on LeTourneau when *U.S. News & World Report* ranked us as one of the top five small colleges in the West and as one of the West's best educational values. We were also selected for inclusion in *Peterson's Guide to Competitive Colleges*—placing us in the top 10% of colleges in the U.S.

- In sports, highlights included the introduction of our first-ever varsity-level women's basketball team, an outstanding record-setting effort by our men's soccer team and our entry into the "Big State Athletic Conference."

- Our budget year ended in the black. This was the eighth year in a row we have had a balanced budget. A strong pattern of giving in the Alumni Phonathon (we met our \$85,000!) was a highlight of an outstanding year that saw \$1.44 million donated to the University.

- Spiritual life and development continued to be a major focus of the year. Rev. John Stone was selected to become our first-ever "associate dean for spiritual life." Over 150 students, staff and faculty once again participated in the Spring Break "Action in Mexico" missions trips.

- Dr. Robert Hudson, dean of graduate, adult and continuing studies, is our

8th year in a row!). The "Scream'n Armadillo", our entry in the National Super High Mileage competition, did not win the contest, but did average over 300 mpg in earlier track trials.

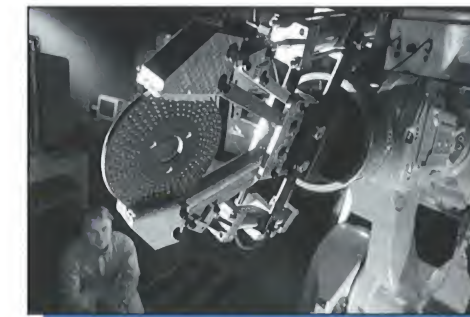

- Our students continued to shine in competitive testing and competitions. We had a 100 percent pass rate on the state teacher certification test; our business majors scored in the upper 15 percent in a national business assessment test; our students once again won the Texas State Aviation Maintenance Contest (for the

Our Opportunity to Shape Tomorrow

Perhaps the biggest news of the year is the kickoff of the Shaping Tomorrow capital campaign—a three-year \$16 million fund raising project which will have a profound impact on the future of our campus and our students.

The campaign is chaired by Paul Glaske, chairman of our Board of Trustees and CEO of the Blue Bird Corporation. The Shaping Tomorrow campaign will provide for a new student

recreation and activity center, a new engineering center, renovation and expansion of the science building, student scholarship endowment, facilities endowment and general program support.

We are praising the Lord that we have already raised \$4.8 million—nearly one third of the campaign total! Gifts include \$2.5 million from the Solheim Foundation in Phoenix, Ariz.; a challenge donation of \$500,000 from Elliot Belcher, of Brent, Ala.; another challenge donation of \$1 million from the J.E. and L.E. Mabee Foundation in Tulsa, Okla.; and donations totaling \$800,000 from other members of the University's Board of Trustees. Also, Mr. and Mrs. Gus Davis, Las Colinas, Texas, and formerly from Longview, have contributed the Estes Ranch, with about 470 acres of land and a home located south of Longview.

The Shaping Tomorrow campaign is detailed on pages 7-12.

We encourage you to be praying for us as we undertake the most ambitious and far-reaching fund-raising effort in the history of LeTourneau University.

—Dr. Alvin O. Austin
President

We depend on people who share our commitment to Christian education. People who serve LeTourneau out of love for the University and love for our Lord. They give their time, energy and resources to see that our important mission is carried out.

In recognizing the Alumnus of the Year and Honorary Alumnus of the Year, we express our appreciation to these faithful partners in ministry.

1994 ALUMNUS OF THE YEAR

PHILIP KUITEMS

LeTourneau University honors Philip "Phil" Kuitems (AT '84) as our 1994 LeTourneau University Alumnus of the Year.

Phil has volunteered so much time on campus that some students believe he must be on the faculty! His list of involvement with the University includes: chairperson of the 10-year reunion for the class of

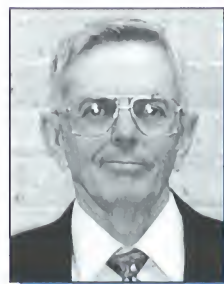

1984; chair of the Homecoming '94 class reunions committee; chair of the LAS residence house project steering committee; officer with the Aviation Alumni Association; member of the Aviation Alumni Association scholarship program; and speaker in chapel, classes and special seminars. And that's just Phil's service on campus. He has also been a supporter of the University in his adopted state of North Carolina, where he is a pilot with USAir, including helping form a North Carolina alumni chapter and financially supporting the University. He is a member of the President's Circle.

Phil is burdened for the salvation of the lost and is always ready to share the good news of the gospel with those he meets. He has been a strong witness for our Lord in the aviation profession and through his church. Phil has been blessed with the gifts of exhortation and leadership, and is a tireless encourager of others to accomplish great things, especially if the project involves LeTourneau.

We congratulate Phil on being selected as our 1994 Alumnus of the Year and are honored to count him as one of our alumni.

We invite alumni and friends to nominate candidates for Alumnus of the Year or for the Distinguished Alumni Award, which recognizes outstanding achievements by alumni in a particular career, service, area or volunteer capacity. Nomination forms are available from the Office of Alumni Relations.

1994 HONORARY ALUMNUS OF THE YEAR

JAMES E. SIMS

Mr. James E. "Jim" Sims is being honored as our 1994 Honorary Alumnus of the Year.

Although not an alumnus himself, Jim has diligently sought to employ as many LeTourneau graduates as possible, recruiting over half a dozen

welding engineering graduates for his employer, Chicago Bridge and Iron, where he is general manager of welding and quality assurance.

Jim serves as a member of the University's Welding and Materials Engineering Advisory Council, advising the faculty on curricula and standards to meet industry needs. He has served as a frequent guest lecturer in our Engineering program.

Most recently, much of Jim's time has been devoted to assisting the funding of the University's first-ever endowed chair, the Omer W. Blodgett Endowed Chair of Welding and Materials Joining Engineering. This is a \$700,000 project that will have a profound impact on the future of welding engineering programs at LeTourneau. Jim has been the initiator of many meaningful contacts with welding industry leaders, and a significant portion of the \$300,000 endowment raised so far is due to his hard work and constant efforts.

We are grateful to the Lord for bringing Jim Sims into the life of LeTourneau University, and are delighted to honor him in this way.

The University administration and Alumni Association recognize these Distinguished Alumni who are making a significant difference for the Lord in their work, for the University or in other types of service.

1994 DISTINGUISHED ALUMNUS AWARDS

MARIAN BENSON (BM '94, class #76) is being honored as a 1994 Distinguished Alumnae for her outstanding service in East Texas.

Marian is the director of the Longview Ambulatory Surgical Center. The state-of-the-art Surgical Center is a model of the future of medicine, performing surgeries at up to 50 percent of the cost of an equivalent

hospital procedure. It is widely praised by both patients and area doctors. Although she had already earned her nursing degree 24 years ago, and is a nationally certified gastrointestinal nurse, she returned to college, earning her B.S.B.M. from LeTourneau through the LEAP program. Marian is the wife of Bryan Benson, director of flight programs.

PAT BERTSCHE (IM '89) is being honored as a Distinguished Young Alumnus for his significant contribution to the University as a recent graduate.

In 1989, Pat was hired as L.U.'s first alumnus to work for Karsten manufacturing, maker of the world-famous Ping golf club. In just five years Pat has been promoted several times and is now Karsten's production manager. He has been instrumental in the hiring of seven additional L.U. alumni and has also found time, with his wife Melanie (BU '89), to found the Phoenix, Arizona Alumni Chapter.

ROB BRYANT (BM '93, class #58) is being honored as a 1994 Distinguished Alumnus for his world record setting accomplishments and outstanding Christian witness.

Rob, who is paralyzed from the waist down, has not let his disability stop him. He is listed in the "Guinness Book of World Records" for the longest distance ever traveled

on a rowing machine (he traveled 3,280 miles from Los Angeles to Washington, D.C. on a three-wheeled row cycle in 1990). He also is the world record holder (paraplegic) in the long distance walk on braces and crutches.

Rob is the author of three books and has presented the gospel message to hundreds of groups all over the nation. Rob is currently enrolled in LeTourneau's MBA program in Dallas.

WILLIAM J. GOODFELLOW (WE '50) is being honored as a Distinguished Founders Alumnus. Founder's alumni are those who attended LeTourneau during its first 10 years of operation.

During a long and distinguished career, William was vice president of Gorbett Brothers Steel, field superintendent for Trinity Industries, and owner of Tank Builders, which he founded in 1972, and from which he retired in 1982.

William is a former member of Gideons International and continues to be active in church and missions activities. His son, David, is also a LeTourneau graduate.

RUTH TUCKER (HI '67) is being honored as a 1994 Distinguished Alumnae for her accomplishments as an author and professor.

Ruth has published 11 books, including the bestselling, *From Jerusalem to Irian*

Jaya: A Biographical History of Christian Missions (Zondervan, 1983) and *Another Gospel: Alternative Religions and the New Age Movement* (Zondervan, 1989). Two of her books have received the Christian Publishers Association Gold Medallion Award. She has been a frequent contributor to *Christianity Today* and many other periodicals. She is a visiting professor at Trinity Evangelical Divinity School and has also taught at Fuller Theological Seminary and elsewhere.

(B) EXPENDITURES

Shaping Tomorrow

A 3-Year \$16 million Capital Campaign in Honor of Our 50th Anniversary.

Shaping Tomorrow is the most ambitious fund raising effort ever undertaken by LeTourneau University. It is a three-year \$16 million capital campaign which will have a far-reaching impact on

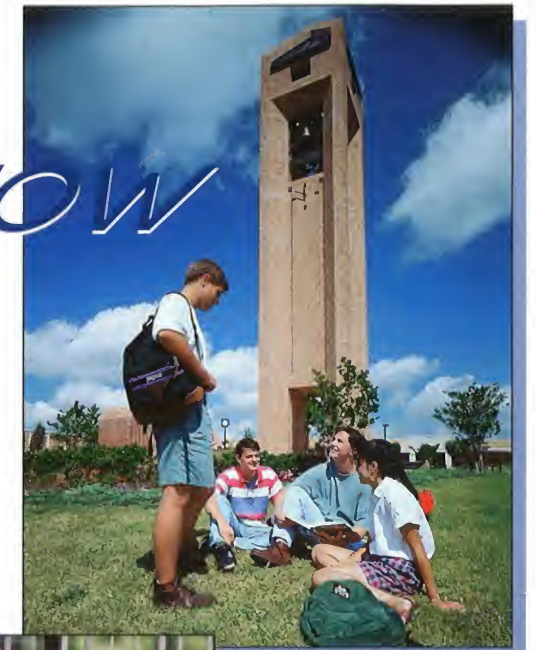

the campus and future generations of students. The Shaping Tomorrow campaign is slated to conclude in 1996, in conjunction with the 50th anniversary celebration of the University, which was founded in 1946.

The centerpiece of the Shaping Tomorrow campaign is a \$7.1 million recreational complex to be named the Solheim Recreation and Activity Center.

The Shaping Tomorrow campaign will also raise \$2.5 million to build a permanent building for the University's Engineering and Engineering Technology programs, which are currently housed in five different metal structures. Another \$1.8 million dollars will fund the renovation and expansion of the Science Building. Also planned is \$500,000 to provide an endowment to support the ongoing operation of the Science and Engineering Facilities.

Rounding out the campaign is \$1.5 million for student aid endowment and \$2.6 million for

general program support.

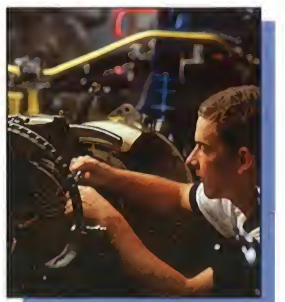

The theme of the campaign, Shaping Tomorrow, reflects the University's

desire to develop integrity, leadership and Christian faith and character in its students. In the words of President Austin: "Our world needs men and women of integrity who

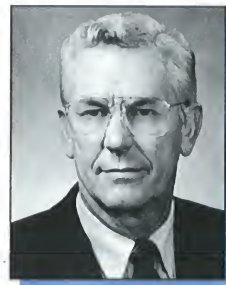

have the skills to be leaders. LeTourneau can, and does, prepare such people. We need to do more.

We want to help in shaping tomorrow and encourage people to join us in our quest to shape the future."

Shaping Tomorrow

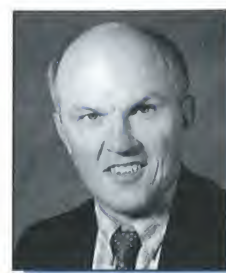

—PAUL GLASKE
CHAIRMAN, SHAPING TOMORROW CAMPAIGN
AND LETOURNEAU UNIVERSITY BOARD OF TRUSTEES

In my years of involvement with LeTourneau University, I have witnessed its development into a world-renowned academic institution. But one thing has not changed; the commitment to the Christian faith and helping our students develop Christian character.

The number of academic programs has increased and now our student body exceeds 2,000. While that is great news, I am convinced an even greater opportunity is right before us. With the need for men and women of integrity who have outstanding skills, LeTourneau is poised to make a significant impact on our world.

Our graduates are known for their ability to work well with people and get the job done. But our alumni bring more than knowledge and people skills to the workplace. More and more employers are looking for LeTourneau people because of the Christian character they bring to their profession.

It is because of this demand that the Board of Trustees approved the 50th anniversary capital campaign, Shaping Tomorrow. We must be prepared to seize this opportunity to put more LeTourneau trained people in the workplace. Our LeTourneau family is committed to this campaign. We ask you to join us as we try to shape tomorrow.

—DR. RICHARD BEACH
Director of Athletics
and Professor of
Physical Education

"We're excited about the potential impact of the new Center. It will be a quality facility that will allow us to operate more efficiently and provide a more positive physical environment for activities. It will enhance our ministry and outreach potential, including camps, community involvement and special events."

"As an athlete, the variety of facilities in the Recreation and Activity Center will allow for new avenues of training and varsity sports. As a Christian, I see the Center as an outreach opportunity. Through its many resources and programs, we can impact Longview!"

—AMY MCCRADY
Sophomore
Mechanical Engineering
Varsity Volleyball and
Basketball Player

—DR. JOHN BUSCH
Chair of the Division
of Engineering
and Engineering
Technology

"Our students must have educational experiences to equip them for professional work in the 21st century. A new Engineering Center and enlarged Science Building will provide the needed classrooms and labs featuring state-of-the-art technology, to assure that educational needs are met."

A 3-Year \$16 Million Capital Campaign in Honor of our 50th Anniversary

Student Aid

Endowment
for Student Aid
\$1,500,000

"The scholarship made it possible for me to attend my first choice—LeTourneau University."

— Galen Steele,
from Roseburg, Oregon

Galen is now a graduate and launched in his career. But for many of our prospective students the dream of a career in aviation, business, education, engineering, the sciences, liberal arts or other profession seems far more difficult to obtain than ever before. LeTourneau University works very hard to make an education here as affordable as possible, but there is often a gap between what we must charge and what the student is able to pay. Even with the help of family, student loans and grants, many LeTourneau University students cannot finance their education.

The \$1.5 million raised as part of the Shaping Tomorrow campaign will have an immediate impact and continue to help students for many years to come by increasing our student aid endowment. Long after the gift is given as part of the campaign, the endowment interest from that gift will continue to benefit future students, shaping tomorrow's young men and women.

- WHY THE NEED?
- The present gymnasium was built in the 1960s for a student body of less than 500. Student development activities are severely hampered by scheduling conflicts and inadequate space to support an active intramural program and a varsity sports program that includes eight different intercollegiate teams. Strength conditioning takes place in a small, unimproved World War II-era barracks. Our pool is more than 50 years old, and, as an outdoor facility, cannot be used by students except for a few weeks in the early Fall. Expected growth in resident student enrollment during the next few years will place additional burdens on our existing gym and related facilities.
- The Recreation and Activity Center will be located near the main entrance, providing easy access to the University family and the community. It will include:
- Two court regulation size gym with moveable seating for 1200
 - Indoor swimming pool
 - Racquetball courts
 - Weight, aerobics and fitness rooms
 - Four classroom/meeting rooms
 - Physical Education department offices
 - Locker rooms
 - Indoor jogging track
 - Student lounge area

Shaping Tomorrow's Student

Recreation and Activity Center

The Recreation and Activity Center is the cornerstone project of the Shaping Tomorrow campaign. It will improve and expands service to our students, provide outreach to the community and serve as a catalyst to attract more young men and women to come and share the unique educational experience of LeTourneau.

Building	\$4,800,000
Equipment and Site Development	\$ 600,000
Retrofit Existing Building	\$ 200,000
Endowment for Maintenance and Operation	\$1,500,000

Recreation and Activity Center **\$7,100,000**

Additionally, the existing gym will be renovated, maximizing our recreational facilities.

The new center will be used extensively by the entire community and will be the centerpiece of our campus-wide, life-long wellness program. Shaping Tomorrow is more than an intellectual and spiritual goal. It will physically shape our entire campus community.

Included in the campaign are endowment funds to provide for the ongoing maintenance and operation of the Center.

General Program Support

Annual Fund
(3 years)
\$2,600,000

To assure quality and help meet essential operating costs, the Annual Fund supports the nuts and bolts expenses easily overlooked when considering a financial commitment to the

university. The unrestricted nature of the Annual Fund provides flexibility to adjust to changing needs and

circumstances and to meet compelling needs whenever they arise.

The \$2.6 million represents annual support funds needed during the three years of the campaign.

"I attended LeTourneau back in the mid-1960s. Now my son is attending. There have been a lot of changes, but the primary things have not changed: the dedication of the staff, the quality of the education and the wonderful Christ-like atmosphere."

—An alumnus from New York

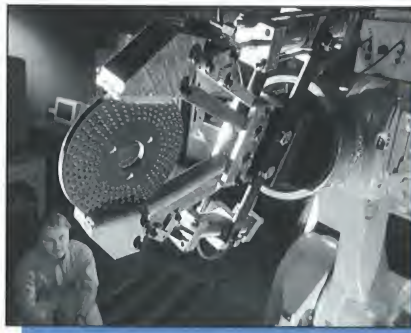

Shaping Tomorrow's Technology

Engineering and Science Facilities

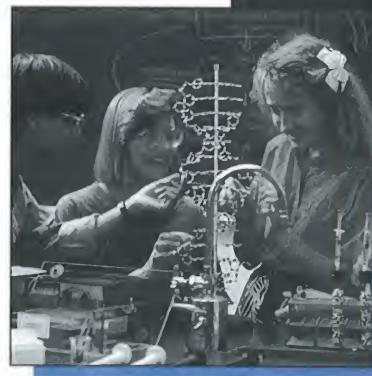

Engineering Center

Our division of engineering and engineering technology has never been permanently housed and is spread out in more than five different metal structures. This division is the largest campus-based program, with 358 majors, and is growing steadily. Space is very tight, with no room to expand or to work on our award-winning research and design projects. A permanent building will also enhance recruitment of additional students and faculty.

Engineering Center	\$2,500,000
Science Building Renovation and Expansion	\$1,800,000
Endowment to Support the Ongoing Operation of the Science and Engineering Facilities and Equipment	\$ 500,000
TOTAL	\$4,800,000

The Engineering Center will include an academic building which will house faculty offices, a Computer Assisted Design (CAD) Center, several state-of-the-art engineering labs and classrooms. We will continue to use the current buildings for additional labs and design projects.

Science Building Renovation and Expansion

The present science building is bursting at the seams! Since 1990, the division of natural sciences, which includes biology, chemistry, medical technology, physical education and related disciplines, has grown three-fold. But the University has not been able to allot additional space to classrooms, labs or faculty office space.

The Science Building renovation and expansion will add a new wing to the present building, increasing the number of labs and classrooms. The present structure will be renovated to meet safety and access needs, and to provide an environment more conducive to learning.

Shaping Tomorrow's Student Total	\$11,200,000
Shaping Tomorrow's Technology Total	\$4,800,000
Shaping Tomorrow's Campaign Total	\$16,000,000

With Gratitude and Thanks

The following alumni and friends made contributions to LeTourneau University during the period July 1, 1993 to June 30, 1994. We deeply appreciate each and every gift, and the many givers who make it possible to carry on the work of educating Christian young people. Rest assured that your gifts are used in a manner consistent with the sacrifice that accompanies them.

JOHN GALIANO
DIRECTOR OF
ALUMNI RELATIONS

I recently surveyed our alumni and asked 35 questions dealing with a broad variety

of issues. There was an excellent rate of response. More than 1500 alumni took the time to complete the form and return it to me. Thanks!

Throughout the next pages are some of the results of the survey, along with some general information about our alums. Look for the "1994 Alumni Survey" boxes. I am also including a chart which lists alumni giving by class. My congratulations to the class of 1981. These dedicated alums set the pace for the highest percentage of giving.

1994 Alumni Survey

Where Alumni Live:

There are alumni in all 50 states.

Top 5 States:

Texas: 2,362
Pennsylvania: 326
California: 302
Florida: 213
Illinois: 205

Bottom 2 States:

Hawaii: 3
Utah: 5

There are alumni in 52 foreign nations:

Top 3 nations:

Canada: 72
Mexico: 18
Brazil: 14

I'm proud of our alumni! You are living out what LeTourneau is all about: love for the Lord, service to your church and community, and commitment to excellence in your profession. Keep it up! For a copy of the survey results, call the Alumni Office at 1-800-259-ALUM.
